## TalentEdge Fellowship Program

Application Data	
Project Title	
Application Number	

1. Overview of the company-specific problem
Describe <b>the company-specific problem</b> that the fellow(s) will work on. How will the company benefit from the intern's scientific or technical expertise, or the innovative techniques, processes or products that the intern will develop in the proposed project?

2. Description of the R&D challenge
Describe the R&D challenge that the fellow(s) is addressing. This may include current gaps in research and how these gaps may be addressed in your project.

3. Proposed Research
Describe the project objectives, proposed methodology, and the novelty of the approach and/or application.

--

<b>4. TalentEdge Fellow(s)</b>
--------------------------------

Describe the extent of hands-on interaction the company will offer the fellow(s), including the amount of time the fellow will spend on-site or in the field with the company, and any opportunities for mentorship. Describe why the fellow(s) is suitable for this project. Consider including career goals and how this fellowship may help achieve them; any relevant experience, positions, or achievements that demonstrate fellow's suitability to work on this project.
