Centre of Excellence for Energy Welcomes New Managing Director

OCE is pleased to announce the appointment of Dr. Dan McGillivray as Managing Director of its Centre of Excellence for Energy.

Dan brings a strong profile of skills and experience to his new position, having worked as an environmental consultant, a university professor, a physical oceanographer and the President and CEO of Environmental Software Consultants Inc. He joined Ontario Centres of Excellence in October 1997, initially as Director, Business Development & Technology Transfer with the Centre for Research in Earth and Space Technology (CRESTech). He was appointed Managing Director, Centre of Excellence for Earth and Environmental Technologies in July, 2006, and assumed the responsibilities of Acting Managing Director of the Centre for Energy last November.

As Acting Managing Director, Dan has brought very effective leadership to a high profile and critical sector of the Ontario economy. He has recently overseen the design and launch of new partnerships with the Ontario Power Authority and the Ministry of Energy and, together with his team, is mounting a robust portfolio of research projects to tackle the challenges of Ontario's energy markets and energy systems and the development of new clean energy technologies.

If you are passionate about making a contribution both strategically and tactically to Ontario's innovation agenda, and you possess superior leadership, interpersonal and communication skills, please visit our [careers section](#) to learn more about other exciting leadership opportunities with OCE.
